

The Fairer ... Computer?

Today, the Internet is a network of information. It contains 60 trillion web pages, remembers 4 zettabytes of data, transmits millions of emails per second and is all interconnected by sextillions of transistors. Our lives and work run on this Internet of information. But, have you ever stopped to consider what gender your computer is?

Recently I read about a Spanish teacher who was explaining to her class that in Spanish, unlike English, nouns are designated as either masculine or feminine.

'House' for instance, is feminine: 'la casa.' 'Pencil,' however, is masculine: 'el lapiz.'

A student asked, 'What gender is 'computer'?'

Instead of giving the answer, the teacher split the class into two groups, male and female, and asked them to decide for themselves whether 'computer' should be a masculine or a feminine noun. Each group was asked to give four reasons for its recommendation.

The men's group decided that 'computer' should definitely be of the feminine gender ('la computadora'), because:

1. No one but their creator understands their internal logic;
2. The native language they use to communicate with other computers is incomprehensible to everyone else;
3. Even the smallest mistakes are stored in long term memory for possible later retrieval;
4. And, as soon as you make a commitment to one, you find yourself spending half your paycheck on accessories for it.

The women's group, however, concluded that computers should be Masculine ('el computador'), because:

1. In order to do anything with them, you have to turn them on;
2. They have a lot of data but still can't think for themselves;
3. They are supposed to help you solve problems, but half the time they ARE the problem; and
4. As soon as you commit to one, you realize that if you had waited a little longer, you could have gotten a better model.

I wonder who won?

The final meeting of the Vernon PC Users' Club for this year is Tuesday June 14th, at 7:00 PM in the cafeteria at the Schubert Centre.

We start off every meeting with a 'TANSQ' session. Come see what we're all about! If you have your own laptop, please bring it with you.

Call Betty at 250-542-7024 or Grace at 250-549-4318 for more information.

The next regular meeting will be September 13th. Have a great summer and see you in September!
